BEHAVIOR, TUESDAY, SEPT. 24

A GLOBE "FAKE."

There was an article in last Saturday's Globe entitled "A Faithful Dog," which would have interested us had we not read it long ago in a somewhat different form.

It is familiar to all school children, being a favorite selection from "Dickens' Stories."

The Globe's contributor introduced a few sentences that helped up the article to the required length.

And also located the fidelity and death of poor "Hector" near Toronto some fifty years ago.

In closing, the contributor spoke the pathetic tale exactly with the favorite of our school days.

A STRANGE ACCUSATION.

Haldimand's life is shapely very much like the old tales between the two cities of Lincoln. Yet Haldimand used to be a doctor in David Thompson's day. Margaret was the best to make it the "Globe's" Helen Jones.

In view of the fact that the Grit member elect has been unseated for bribery, which was practiced extensively in his behalf, the Times' accusation is a very strange one.

Does our contemporary hold Dr. Montagu responsible for the bribery? It was practiced by his opponent, including Mr. Collier's treating voters to "cigars" on election day?

A QUESTION OF FACT.

The difficulty which truth has always experienced in overtaking falsehood, is well illustrated in the case of the "Globe's" "mystery," so called. The alleged existence of an enormous island sea, larger than Lake Superior, in the district lying between Lake St. John and James' Bay, was last year seized upon by a certain sensationalist who is variously known as the Rev. W. H. H. Murray and "Admiral" Murray, and written up in a very telling manner.

A controversy was provoked on the subject, which led to the production of the honest and capable gentleman who spent a good deal of time and money and endured a considerable amount of hardship in the task of exploring a silly yarn, but not with universal approval, as the following from the Quebec correspondence of the Montreal Witness will show.

The report of Professor London and Mr. Macdonald, claiming to have discovered the mystery of Great Lake Manitoulin, is better already very readily handled here. Mr. John Rippey, who was in command of the surveying expedition of 1864, has written the letter to the local press claiming that it is a "mystery" and that the electric gas of the water country beyond the highest land that there are many and showing that the water is not a mystery of the statements made by Mr. Macdonald and Mr. London.

Great lake, though admitting that the report of the latter is a "mystery," is better already very readily handled here. Mr. John Rippey, who was in command of the surveying expedition of 1864, has written the letter to the local press claiming that it is a "mystery" and that the electric gas of the water country beyond the highest land that there are many and showing that the water is not a mystery of the statements made by Mr. Macdonald and Mr. London.

The Burden of Womanhood.

Thousands of women are silently suffering from the burden of womanhood. They shrink from consulting a physician in the numerous complaints arising from the various irregularities and disorders. Many a modest girl and woman prefer to bear their burden in silence rather than to go to a doctor for advice.

All sufferers from this class of disorders can, however, find prompt and sure relief in Dr. Pierce's Favorite Remedy. It is a specific in such cases, and has a beneficial effect on the system by restoring them to perfect health.

MR. CHARLTON'S SPEECH IN THE
OPERA HOUSE

Moderate Attendance—No Enthusiasm

The Opera House last night on the occasion of a speech delivered by Mr. Charlton, M.P. for North York, was well filled. The audience was composed of about 500, of whom 50 were ladies.

Mr. L. W. Yeomans was chairman, and assisted by Mr. C. Skinner, R. S. Young, Dr. O'Brien, S. A. Moore, Major Casswell, C. B. Jones, G. W. H. Williams, and J. H. Williams. The chairman in a few remarks introduced Mr. Charlton.

Mr. Charlton upon coming forward was received with cheers. He said the question was whether the franchise should be given to the colored race.

He was in Canada a church for the purpose of securing equal rights for all men. It was a movement that should command Italy to every English speaking people.

We have two distinct nationalities in this country, the French and the English. We have a French province and a French people.

They had a great struggle in this country in 1792 when the English people of the province of Quebec were in the hands of the British.

It was a struggle that was fought for the purpose of securing equal rights for all men. The condition of Quebec was to be a French colony.

There were but three entries for this race namely: R. Curry's Victor, W. Glad-

man's Jennie, and Wm. Wink's Tyndal-

man. Victor once took the lead and maintained it until the finish. Jennie

losing a good second, while Tyndal-

man was considerably behind. Time 1:54.

The second heat Jennie proved Victor for first, and Tyndalman the second. These two were a fine one, but Victor proved to be the best, winning the race by a length. Tyndalman was far behind.

The public school children were closed to day, in order to allow the scholars to visit the exhibition. The juveniles were not to be admitted to the fair, and the main building was thronged all day. The attendance yesterday was not large, but the school children were all there, and the Ladies' band from Deseronto was in and gave a number of fine selections. The judges in the various departments were busily engaged in their duties.

Since the usual preparation is over, a better idea of the exhibition can be obtained. In a hasty report yesterday a few errors occurred and a number of new exhibitors have been added. In the building of the exhibition, there was an excellent display of tombstones. The Manitoba was also a fine display, and the main building was thronged all day.
